Online registration is not required in California or Quebec. Full warranty details available at [www.goodmanmfg.com](http://www.goodmanmfg.com).

The Gas Saver™ logo identifies those Goodman™ furnaces with a fuel efficiency level of 95% AFUE or higher.

## Thank goodness for Goodman.™

Air Conditioning & Heating

## ENERGY EFFICIENCY IS KEY...

### TO CONTROLLING THE COST AND COMFORT OF HEATING YOUR HOME.

The Goodman® brand GMH95 Gas Saver™ Dual\$aver™ Gas Furnace is the answer to your family's heating needs. Goodman has always been a leader in providing high-quality heating products at a refreshingly comfortable price.

Now, with new Dual\$aver technology, the GMH95 Furnace will provide you with even-temperature warmth, improved air quality and quiet operation. Plus, the money you'll save on utility bills as compared to lower AFUE furnaces will have you saying, "Thank goodness for Goodman."

### FOR CONSISTENT HEATING COMFORT YOU CAN COUNT ON.

Unlike conventional, single-stage furnace technology, Goodman's Dual\$aver technology eliminates the temperature swings resulting from abrupt, high-stage stops-and-starts of the furnace by operating at a low heating stage the majority of the time. This enables your Goodman GMH95

furnace to gradually and pleasantly increase the temperature of your home environment. And if low-stage heating doesn't warm your home to the desired temperature quickly enough, Dual\$aver shifts your furnace into high-stage to ensure your comfort.

### OTHER BENEFITS OF DUAL\$AVER™ TECHNOLOGY INCLUDE:

- Quiet furnace operation
- Helps to eliminate the stagnant pockets of air that can form when the furnace stops running
- Increased air filtration providing improved air quality

### OUTSTANDING ENERGY EFFICIENCY

Energy efficiency is the key to controlling the cost of heating your home. This furnace's 95% AFUE rating means that 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of every \$1.00 of heating energy expense contributes to your home's heating.

When properly installed, your high-efficiency Goodman brand GMH95 Furnace meets the stringent requirements of the Environmental Protection Agency's Energy Star Program.\*\*

\*\*Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at [www.energystar.gov](http://www.energystar.gov).

## QUALITY MANUFACTURING BACKED BY EXCEPTIONAL WARRANTIES\*

### QUIET OPERATION

The components of your Goodman GMH95 Furnace including the multi-speed blower and two-stage gas valve have been specially selected to reduce the noise levels common in other furnaces without these features. Plus, we house these components in a fully insulated, heavy-gauge steel cabinet. The result... quiet comfort.

### LONG SYSTEM LIFE

The heart of any furnace is the heat exchanger. Our patented, aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to industry standards.

For further safety and reliability, we also include our high-quality Silicon Nitride Igniter, the most durable igniter in the industry, that helps ensure safe start-ups and maximum igniter life. Additionally, the Goodman brand GMH95 Furnace is designed to minimize NOx emissions, contributing to better air quality.

### OUTSTANDING PRODUCT WARRANTIES\*

We back our Goodman GMH95 Dual\$aver Multi-Speed Furnace with what we believe to be one of the best warranties\* in the industry. We cover its heat exchanger with a **Lifetime Heat Exchanger Limited Warranty\*** for as long as you own your home and provide a **10-Year Limited Parts Warranty\*** on all remaining functional parts. Even better, if the heat exchanger fails within the first 10 years of use by the original, registered homeowner, we'll provide a replacement furnace for free!\*

**GoodCare**<sup>†</sup>  
EXTENDED SERVICE PLAN  
Provides Years of  
Worry-Free Coverage

## GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was, and our goal remains, to manufacture air conditioning and heating equipment that performs more reliably, lasts longer than the competing products and eliminates time-consuming installation problems.

And, of course, he endeavored to make air conditioning and heating products as affordable as possible. Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities.

Our continuing commitment to quality products may mean a change in specifications without notice.
