# Goodman<sup>®</sup>

## Air Conditioning & Heating

### ENERGY EFFICIENCY IS KEY...

#### TO CONTROLLING THE COST AND COMFORT OF HEATING YOUR HOME.

As a homeowner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the Goodman<sup>®</sup> brand GMVC95 High-Efficiency Two-Stage, Variable-Speed Gas Furnace with up to 95% AFUE.

What should you expect from your Goodman brand GMVC95 High-Efficiency Two-Stage, Variable-Speed Gas Furnace? How about a superior combination of performance, efficiency and affordability? That's just what you'll get with Goodman.

#### PRECISE ROOM-TO-ROOM TEMPERATURE CONTROL

Goodman's GMVC95 High-Efficiency Gas Furnace with two-stage heating and a variable-speed circulating blower provides a total comfort home-heating alternative – efficiently and economically. This furnace's variable-speed circulating blower reduces operating costs and advances home comfort by reducing temperature swings and air stratification from floor to ceiling. Unlike standard furnaces that run “all on” or “all off,” a Goodman brand variable-speed furnace typically runs 90% of the time in the low-heat capacity on most days, but when the weather is very cold, ramps up to high-heat capacity so that your family stays warm and snug.

#### QUIET OPERATION

Your Goodman brand High-Efficiency Furnace uses a multi-speed induced draft blower motor and variable-speed circulating blower to reduce the noise levels common in other furnaces without these features. Since this unit typically runs in low-heat stage 90% of the time, the impact of the normal high-fire sound is eliminated up to 90% of the time. Add to that a fully insulated, heavy-gauge steel cabinet, and the result is...quiet comfort.

### YEAR-ROUND ENERGY SAVINGS

Energy efficiency is key to controlling the cost of heating your home. The Department of Energy (DOE) established the Annual Fuel Utilization Efficiency (AFUE) system to calculate the annual operating cost of home furnaces. This Goodman furnace's 95% AFUE rating means 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60%

AFUE, meaning only 60 cents of every \$1.00 of heating energy expense warms your home. The remaining 40 cents is lost energy—wasteful and expensive.

When properly installed, your Goodman brand High-Efficiency Furnace meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program.\*\* Additionally, the Goodman brand GMVC95 Furnace is designed to minimize NOx emissions, contributing to better air quality.

\*\*Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at [www.energystar.gov](http://www.energystar.gov).

## QUALITY MANUFACTURING BACKED BY OUTSTANDING WARRANTIES\*

**LIFETIME  
HEAT EXCHANGER  
LIMITED WARRANTY\***

### RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our patented, aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to industry standards and we back them with a **Lifetime Heat Exchanger Limited Warranty\*** for as long as you own your home. The unit can fit any upflow/ horizontal application, has a durable Silicon Nitride Igniter, and has integrated controls with diagnostics, plus a combination redundant gas valve and regulator for further safety and reliability.

### OUTSTANDING WARRANTIES\*

We back your Goodman brand GMVC95 High-Efficiency Variable-Speed Furnace with what we believe to be some of the best standard warranties and extended service plans in the industry.

In addition to covering the heat exchanger with a **Lifetime Heat Exchanger Limited Warranty\*** for as long as you own your home, we promise that **if the heat exchanger fails during the first 10 years of ownership, we will replace the entire unit\***. This Goodman furnace also has a full **10-Year Parts Limited Warranty\*** on all other functional parts.

For even greater peace of mind, ask your dealer or visit our web site at [www.goodmanmfg.com](http://www.goodmanmfg.com) for more details about **GoodCare®**, an affordable Parts and Labor Extended Service Plan for your entire Goodman brand HVAC system.†

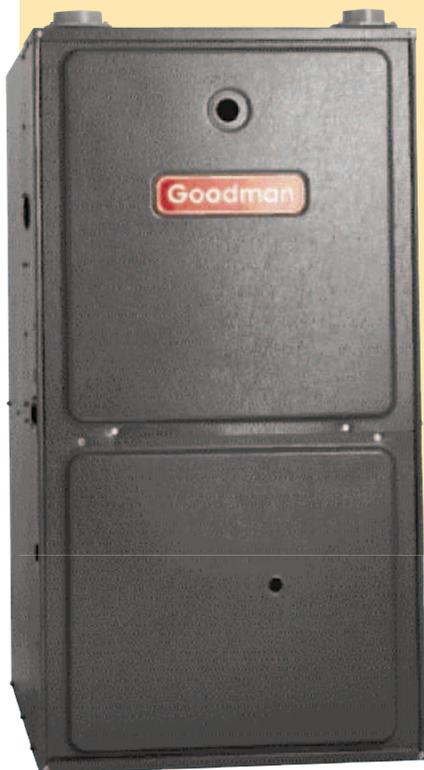

**GoodCare®**<sup>†</sup>  
EXTENDED SERVICE PLAN

### ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

## GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was, and our goal remains, to manufacture air conditioning and heating equipment that performs more reliably, lasts longer than the competing products and eliminates time-consuming installation problems.

And, of course, he endeavored to make air conditioning and heating products as affordable as possible. Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities.

Air Conditioning & Heating

Our continuing commitment to quality products may mean a change in specifications without notice.
