Thank goodness for Goodman.™

Air Conditioning & Heating

TURN TO GOODMAN...

FOR RELIABLE WARMTH AND MONEY-SAVING ENERGY EFFICIENCY.

As a homeowner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the Goodman® brand GKS9 Energy-Efficient Multi-Speed Gas Furnace.

What should you expect from your Goodman GKS9 Energy-Efficient Multi-Speed Gas Furnace? How about a superior combination of performance, efficiency and affordability? That's just what you'll get with Goodman.

YEAR-ROUND ENERGY EFFICIENCY

Energy efficiency is key to controlling the cost of heating your home. This furnace's 92.1% AFUE rating means 92.1 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of every \$1.00 of heating energy expense warms your home. The remaining 40 cents is lost energy – wasteful and expensive.

When properly installed, your Goodman brand High-Efficiency Furnace meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program.** Additionally, the

Goodman brand GKS9 Furnace is designed to minimize NOx emissions, contributing to better air quality.

**Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at www.energystar.gov.

QUIET OPERATION

Your Goodman brand GKS9 Furnace uses a multi-speed blower motor and sound-isolated blower assembly to reduce the noise levels common in other furnaces. Add an insulated, heavy-gauge steel cabinet, and the result is... quiet comfort.

RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our patented, aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to industry standards.

For further safety and reliability, we also include our high-quality Silicon Nitride Igniter, the most durable igniter in the industry, that helps ensure safe start-ups and maximum igniter life.

Unmatched combination of performance, efficiency and affordability. That's just what you'll get with Goodman.

QUALITY MANUFACTURING BACKED BY EXCEPTIONAL WARRANTIES*

**LIFETIME
HEAT EXCHANGER
LIMITED WARRANTY***

GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was, and our goal remains, to manufacture air conditioning and heating equipment that performs more reliably, lasts longer than the competing products and eliminates time-consuming installation problems.

And, of course, he endeavored to make air conditioning and heating products as affordable as possible. Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities.

Our continuing commitment to quality products may mean a change in specifications without notice.
